## How do I access research guides online at Hedberg Library?

LibGuides: <http://libguides.carthage.edu/>

The librarians at Hedberg Library put together research guides for every discipline at Carthage College. You may access these guides through the link below:  
<http://libguides.carthage.edu/>.

From this page click on the link from the list at the left for the program you are researching. You may choose one of the research guides in the center of the page. That will bring you to a page with tabs where you can access subject-specific databases, reference materials, audio/visual resources, and links to local library catalogs. You will also find a tab to take you to the library's interlibrary loan system, ILLiad.
