

Media and Audio Visual

How do I upload a video to YouTube?

Click this link for [instructions on how to upload](#) a video via,

- Computer
- Android
- iOS
- Email

YouTube video file formats and resolution settings

1. YouTube supports High Definition video.
2. Videos should be uploaded in the highest resolution available.
3. Videos uploaded in the 16:9 ration with fit the YouTube player.
4. Most 4:3 formats are supported but the video will be “pillar boxed” (black bars placed on the side of the video) in order to fit the player.
5. Use supported file formats: MPEG4, 3GPP and MOV files- supporting h264, mpeg video codecs and AAC audio codec (how a video and audio is compressed and then decompressed).How
