

Software

How do I use the Los Ritmos Spanish web portal?

Los Ritmos Spanish software is now web-based now, so there is nothing to install. Take a look at the following links for how-to videos on registering as an instructor, and using the website (the instructions are for the company's German textbook website, but the content is the same for Los Ritmos):

- See THIS link on how to register: <https://evialearning.com/instructor-videos>
- Then see THIS link on how to use the web site: <https://vimeo.com/229011994>
